Submit the completed application along with a copy of the primary renter's ID to utilities.cs@bloomington.in.gov.  
Expect the review process to take at least one day. Hydrant meter availability is not guaranteed.

## TEMPORARY HYDRANT METER RENTAL CONTRACT TERMS AND CONDITIONS

The undersigned (Customer), in consideration of the City of Bloomington Utilities (Utilities) providing a hydrant meter and temporary water service, agrees to the following terms and conditions:

- Temporary Hydrant Meter contracts shall be valid for a period of twelve (12) months. At the end of the twelve month period the customer shall be responsible for returning the meter to Customer Service. If at that time the Temporary Hydrant Meter is still needed the customer shall enter into a NEW contract with CBU.
- Customer shall pay to Utilities a monthly fee based upon the size of the meter and the number of days the meter has been in the possession of the Customer beginning with check-out date. In addition, Customer shall pay for all water discharged through the temporary hydrant meter at the current rate approved by the Indiana Utility Regulatory Commission. Customer shall pay for the replacement of the meter if deemed lost as well as any damage which occurs to the meter, during the rental period.
- For meter rentals in excess of one month, Customer shall submit meter readings to Meter Services by the **1st of every month** by telephoning **812-349-3638**. Customer also agrees to bring the meter in for verification in at six (6) month intervals April and November of each year. Customer will be billed for water usage on a monthly basis. Utilities reserves the right to retrieve the meter from the location of use should the terms of this contract be violated by Customer. Any costs related to Utilities' efforts to retrieve the meter due to such violations will be charged to Customer. Customer further agrees to notify Utilities Customer Service Department prior to using the meter at any other location.
- Upon return of the meter, the final charges for previously unbilled-metered water invoices will be calculated. Furthermore, if the meter is determined to be lost or damaged in any way, appropriate charges will also be assessed. These amounts will be added to the prorated monthly rental fee, and the total will be immediately due and payable.
- If the meter is lost or damaged in such a way that precludes obtaining an actual reading, the Customer shall pay a sum for water usage calculated as follows: For each day after check out date, the current rate approved by the Indiana Utility Regulatory Commission for water discharged through a hydrant based upon the maximum flow capacity of the hydrant meter for an eight hour period.
- Customer agrees to release and hold harmless the City of Bloomington, the Utilities Department and its employees, officers, and agents, from any claim(s) for personal injury or property damage resulting from the use of this temporary hydrant meter. Further, Customer agrees to release, hold harmless, and indemnify the City of Bloomington, the Utilities Department and its employees, officers, and agents from any claim(s) for personal injury or property damage made or asserted by any other person(s) against the City of Bloomington or Utilities Department, which may result from use of this hydrant meter.

By completing and signing the TEMPORARY HYDRANT METER RENTAL AGREEMENT, Customer accepts the terms and conditions of this contract.

Meter Size:	Deposit Amt:	Monthly Svc Chg:	Price per 1,000 gals:
1"	\$100.00	\$10.60	\$3.16
