## Waste and Recycling Management Plan Template (Only if you anticipate over 100 participants)

Event name: \_\_\_\_\_

Number of expected attendees: \_\_\_\_\_

Number of food vendors: \_\_\_\_\_

Number of other vendors: \_\_\_\_\_

**Designated waste and recycling manager:** This may be a staff member or a volunteer. Events expecting over 100 attendees are required to designate a waste and recycling manager who will be in charge of overseeing the implementation of the waste and recycling management plan.

**Event map:** In the event map you submit with your event application, please clearly designate where waste and recycling bins will be placed. Each waste bin should be paired with one or more recycling bins. Also designate any larger collection areas (such as dumpsters) and the path for access by waste haulers.

**TIP:** Recycling bins should be visually distinct from waste bins, and all bins should be clearly labeled for easy use by attendees. ClearStream recycling bins are available for use through [Downtown Bloomington, Inc.](#)

**Targeted waste:** Please enumerate the types of waste expected at the event and plans for collecting each type of item using the following table. Examples are listed, but feel free to modify as appropriate.

Type of waste	Collection plan
<Containers>*	<Recycling, composting, etc.>
<Mixed paper>	<Recycling in on-site, designated bins staffed by volunteers>
<Food waste>	<Composting bins, waste bins, etc.>

\*Note that “compostable” plastics are only compostable in industrial composters, which are not available in the Bloomington area. If you opt for compostable items at your event, ensure that they are compostable paper rather than plastic.

**Collection and hauling system:** Describe where and how waste and recycling will be collected and separated. Include information on how attendees and vendors will be educated on where materials should be placed, including signage, pre-event training and publicity, volunteer-staffed waste management stations, etc.

Events with over 100 attendees must provide staffed (by paid staff or volunteers) waste management stations to ensure that materials are separated according to the waste and recycling management plan.

**Vendor and volunteer education and training:** Describe your plans for educating volunteers about waste and recycling management plans at the event, and vendors on what materials will be permitted in order to comply with the Plan and to minimize waste through both reduction and recycling.

**Materials and supplies:** List the materials you plan to have on hand to implement the waste and recycling management plan, including bins, labels, bags, signage, etc.

**Designation of duties:** Clearly designate the volunteers, staff, or other individuals who will be responsible for implementing each component of the waste and recycling management plan.
