[2023 Alternative Public Safety Report & Recommendations](#)

This Report, updated as of September 13, 2023, makes recommendations to improve public safety in Bloomington in a way that will reduce costs, crime and injustice.

The community-led, consent-driven and evidence-based design process followed in this Report amplifies the voices of safety-marginalized residents, and the root cause analysis and in-depth outreach performed with key community stakeholders follows best practices in social innovation and design thinking.
